Artistry in Dentistry

We know how important it is for your self-confidence to have a healthy, bright smile. The first step to restoring a beautiful smile is determining why your teeth are not their whitest. Due to staining from food and drinks, dental health habits, or smoking, your teeth may need a long term care program to restore and maintain their brilliance.

With our **Lifetime Whitening Program**, you receive:

- One set of customized upper and lower trays,
- One starter kit of whitening gel at your initial enrollment,
- One refill kit of whitening gel at each 6 month check-up.

To be eligible, you must meet the following criteria:

- Have had a complete dental examination with recommended x-rays to ensure that your teeth and gums are healthy
- Do not have active, untreated disease, gum disease, decay (cavities), root sensitivity, or oral cancer
- Maintain your periodic 6 month check-up and cleaning or your 4 month periodontal check-up and cleaning. If you go more than a month beyond your check-up time, your enrollment will be revoked.
- Provide at least two business days notice if you need to cancel or change an appointment.

Enrollment Fee: The enrollment fee is about half of our normal charge for whitening your teeth one time! With this one time enrollment fee, you can have a beautiful smile for a lifetime.
